Appl. No. 10/806,201  
Reply to Office Action of May 5, 2006  
Office Action dated: March 17, 2009

**AMENDMENTS TO THE CLAIMS:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Currently Amended) A system for downloading music comprising:  
a first memory containing information designating a plurality of songs for downloading; and  
a mechanism for selectively storing song identification information in the first memory based on a digitally transmitted signal which specifically identifies the music; and  
further wherein the mechanism for selectively storing stores information derived from a digital signal which identifies an artist and song that is played back to a system user, and further wherein a web enabled cellular telephone transmits the song identification information to a website that transfers the music to the web enabled cellular telephone.
2. (Previously Presented) The system of claim 1, wherein the first memory is a EEPROM memory.
3. (Previously Presented) The system of claim 1, wherein the memory is a magnetic disc drive memory.
4. (Previously Presented) The system of claim 1, wherein the memory is RAM.
5. (Cancelled)
6. (Previously Presented) The system of claim 1, wherein the system is incorporated into a radio.

Claims 7-10. (Canceled).

Appl. No. 10/806,201

Office Action dated: March 17, 2009

11. (Currently Amended) A method for downloading music comprising the steps of:  
storing in a memory information designating a plurality of songs for downloading;  
selectively storing song identification information in the first memory based on a digitally  
transmitted signal which specifically identifies the music; and  
further wherein information derived from a digital signal which identifies an artist and  
song that is to be played back to a system user is stored, and further wherein a web enabled  
cellular telephone transmits the song identification information to a website that transfers the  
music to the web enabled cellular telephone.

12. (Original) The method of claim 11, wherein the memory is a EEPROM.

13. (Original) The method of claim 11, wherein the memory is a magnetic disc drive.

14. (Original) The method of claim 11, wherein the memory is RAM.

Claims 15-21. (Cancelled)
